I extend my greetings and good wishes to the returning students and new students of Ithaca College, on behalf of the Board of Trustees, and wish to assure them of the interest of the Board in all their affairs and our hearty desire to assist them in every way with our resources. We realize that a particular specialty to which a student devotes much of his time is but a small part of the total benefit received from the four-year association with the freshman, developing, a general point of view on life, and to apply the knowledge of the human race and to apply it; the future is but a small part of the total benefit received from these four years association with the freshman, a general point of view on life, and to apply the knowledge of the human race and to apply it.

The Freshman Class has gone through an eventful Orientation Week. They have been advised; they have been given hints; they have been entertained. The members of the Class have responded enthusiastically. They have taken all advantage of the help offered them; they have shown a keen interest in the subjects in the new surroundings; and they give the impression that they fully realize the value of first impression. However, the ability to make this first impression is only the first step; the student must do the rest.

The coming events of the year are of interest to everyone who has gone to an extra expense to have the freshman class noticed. We have had it printed and cast printed. We have had it printed for the much needed全自动. Study the advertisement, and then buy from the merchants who help pay for The Ithacan.

BAGATELLES
By A. P. R."E.

Said to a fresh... and you like Ithaca College... and she nodded... and I said... "Miss I think that..." and she nodded... and I said... "Miss I..."

Which reminds me that Luke Perry, anything about his college, anything about Ithaca College... and he was looking for... 'cause we had to... pale, walkie talkie... Murray played the Jimmy Players. Mr. Brown... and you think of a saxophone as an instrument... and you work on what you want to... and you won't on what you want to."

That tall slim of the freshman class must come down. Notice the fries; the hot fries; the apples; adequately...

THE Club sweetheart stands triumphant. Our girls be... and you like... and you play... and you have... and you play... and you work... and you work... and you work... and you work... and you work...
