GREETINGS TO FRESHMEN

You will find at Ithaca College unique opportunities to engage in the activities that are of most interest to you. Your college is unusual in that most of its students know what they want to accomplish and the college is so organized that these purposes can be achieved with only minor interruptions. Your fellow students are seeking similar goals. The faculty is aware of these goals and is most sympathetic toward their achievement.

It is our hope that these related factors will enable you to achieve all of your ambitions and that your next four years will be most wonderful while working together toward this end, we should find these years meaningful and helpful.

Each of you has my best wishes for the best four years of your life.

Leonard B. Job

New Lounge For Girls Ready

Don't be alarmed girls if you happen to walk into the red brick building on College Street opposite the Administration Building and find your lounge missing. It really isn't missing but it is just been moved up to the third floor. After much work a new lounge has been built for you girls and I'm sure you will all appreciate it and take good care of it. Where your lounge used to be is the offices of three prominent figures on our campus. Dr. Landon, Professor of Eng. occupies the front office while the rear offices are occupied by Dr. Grimshaw's head of the graduate school and Mr. Clark, Dean of Academic subjects.

There will be a meeting of the Ithaca Staff on Friday, Sept. 24 at 4:30 P.M. in the Ithaca Office. Freshmen are welcome.

WELCOME CLASS OF 1952

Dr. Leonard B. Job Pres. of Ithaca College Greets Freshmen

Full Departmental Chorus To Be Re-Activated

The forthcoming season of Music Department performances will be marked in addition to its customary program of concerts, by the resumption of two popular participating groups.

The largest of the organizations resuming activity is the full department chorus which proved highly successful in former years. The venture was suspended during the war and a faculty shortage caused it to be dropped after a short trial in 1946. Culminating in a Christmas performance of "The Messiah" this year at Bailey Hall, the full chorus will be under the direction of Mr. Donald B. Bebe, newly-appointed member of the faculty.

The Laboratory Orchestra and Band also has been reactivated and will be available for all students with instrumental minors.

Although a specific schedule was not available at press time, a well-balanced musical program may be anticipated from established organizations which have proven their popularity with local residents as well as students through their series of successful performances. The scope of their repertory has been widely extended by tours to other communities and by radio listening audiences.

The male chorus, which was re-introduced last year by Dr. Robert Beeler, which always manages to find a humorous side to music along with the serious, will perform under Mr. Bebe, who will also direct the full chorus. Dr. Robert Beeler will continue to conduct the voices of the Choir he has built into an integral part of the college tradition.

Among the instrumental groups is the ever popular concert band, under the direction of Mr. Walter S. Buhl, which always manages to find a humorous side to music along with the serious, will perform under Mr. Bebe, who will also direct the full chorus. Dr. Robert Beeler will continue to conduct the voices of the Choir he has built into an integral part of the college tradition.

The ITHACAN is YOUR newspaper, as such, we can only strive to make it the representative voice of the students and faculty. As a bi-weekly our "news" is necessarily dated. We try to cover everything but limitations of space and budget sometimes cause curtailment of articles on subjects which may be dear to your heart. We ask to bear with us and to turn in articles or informing us of events or subject matter which you think will be of interest to the school.

Our editorial policy for the coming year will be as impartial as we can make it without sacrificing our principals of right and wrong. However, whether we agree or not, our columns are always open to expressions of opinion when properly signed and identified by the contributor. Under no circumstances will anonymous contributions be printed, but we will withhold the writer's name when so requested. If something bothers you let us know and we'll give you a voice and our editorial support if we agree. We reserve the right to print any material which, in the opinion of the editors, is not in good taste.

TO OUR NEW STUDENTS

The commendable records constantly being achieved by and at Ithaca College have been made only by the devoted cooperation and constant effort of students and faculty. We have no elaborate campus and no splendid buildings. We do not promise to make the drama student an actor or a star in six easy lessons; nor do we hold out visions of an easy path to concert stage or professional sports for the music student or Ph. Ed. The school is not run as a country club, with much social life and little work.

We are proud of our students; proud of our faculty; proud of our showing in our specialized fields. But, these are results of hard conscientious work.

If you realize that true success is not attained by "getting by" or by looking for the easy way; that a thorough education will come only by the turning backs are speedy Bill standing as a goalie last season. This year's squad including eight custom-...
