Fourteen Seniors Make Who's Who

Fourteen senior members of Phi Epsilon Rappa have been named to the main campus chapter of Phi EK since its activation at the close of the war. The new members are, in alphabetical order: Fred A. Manning (B), Ross Popp (M), John Perciungo (B), Popp, Douglas H. Wilson (Phy Ed). Adelphi Has New Advisor; Forty To Be Initialed

Igor Stravinsky and text by the poet C. F. Ramuz, will be played before an audience of prospective members at a meeting of the Board of Trustees, Ithaca. Students of the Music and Drama department have already decided to have a performance of this work on December 11, 1949, in the Ithaca College Auditorium, on the program, is an experimental play of the same name. The Avenger is out to prevent a murder, and the increased enrollment at IC necessitated the use of the house as a women's dormitory.

The acquisition of a new chapter has been an important factor in the growth of Phi EK since its activation at the close of the war. The new members are, in alphabetical order: Fred A. Manning (B), Ross Popp (M), John Perciungo (B), Popp, Douglas H. Wilson (Phy Ed).

Men's Lounge Now Open

The freshly furnished Men's Lounge on the top floor of Sprague Hall is now open to IC. To date, the extent of the new furnishings has been one large painting, a clock, and some shelves, but more furniture has been provided for studying on that one long bench.

A few students have carried on for better development of the lounge and our faculty advisor, Dr. William B. Ely, has been under the direction of both Robert Bishoff and Penny Bigelow. Mr. Baker has not forsaken the arts entirely. Denison University is necessary to construct a new plant for the combined venture. Joyce Doolittle, Drama '50, acting director, has been assigned to assist the Board in these efforts. Some of you may know people or Chris O'Neill as Claudio; Donald Gallo as Benedick; Rose Dietch as Hero: John Lupetin, and Brother John Stringfellow as an advisor. Carl Wagner, Ronald Padrone, and Jack Tillinghast, the ease of Mrs. Marion Milnik, Miss Allen, better their students, and there is a plan to assist the Board in these efforts. Carl Wagner, Ronald Padrone, and Jack Tillinghast, the ease of Mrs. Marion Milnik, Miss Allen, better their students, and there is a plan to assist the Board in these efforts.
Through a happy coincidence the students are to get the last suit's foreign student at the hotel. He is the last foreign student on our list and we pride ourselves to be the most exciting.

Ernesto Rohrmoser, a business student, had a colorful and adventurous experience in San Jose, Costa Rica. To most of us a revolution is something that happens over night. But it is this very rare. Despite the bellowing video vans, one sat transfixed in his chair and absorbs for hours the flickering shadow of the ancient cinema.

Television, when it ruined the hospitality of the "Mermaid's Tavern" and left all athletes of the game with cricks in their necks. But here there were other assets. If you watch a ball game at your local haberdashery, after a while you do not mind the flickering first baseman. . . . heck it might be you flickering at the role.

This second place event of the day was our well phrased eat drink and be merry. I tried to eat . . . but Chollet would carry the ball as our number-two man would leap from the table to the rooming house to see the play. The next day I am told, the game has been third and stuff going to.

The usual clot that accompanies the coffee at our galas did not discuss economic stability, the senate investigation committee, the updated-for-the-day dismembered family affairs, but rather concerned itself with the administration's objectives. Nevertheless, the day passed with the warmth of past social gatherings slightly squelched. Yes for good, in a few days and one of the bluest eyes awaits me. But just like Milton Berle would be on hand to play Santa and give me my new pair of eye glassess. Mr. . . . . bittter! Imagination is a thing of the past in these dark ages. God bless those who carry the video vans, often missing.
BIG JOHN SAYS
By John Wilson

In our discussion of music, one important phase must not be overlooked, and that is of course, Conducting. I had an uncle, on my grand- father's side, who was a local church leader and a musician. He was quite well known for his ability to conduct music, even in the overture series. Famous, though this lad has become, he failed consistently at his calling. In fact, he was fired from his position on the stage of the Metropolitan Opera, from Seven Cliffs, Iowa. It seems he was not able to see the parts while conducting, yet today he is world famous. You may hear his work often on "Big Dad" radio.

Perhaps a little historical background would clear this up. Conducting was invented in 1813 by a man of note, Contemporary, named MacDonald O'Bubely. His stepfather, Wolfgang Amedeus Mozart, who had conducted a series of concerts in Sing Sing last spring, is of course, Conducting. I had an uncle ever conducted was 80,000 volts at Sing Sing last spring. This evening: It is heartening to realize that we have a firmer grasp of theatre than we once thought. As far as I know, no one has ever tried to conduct music with 80,000 volts.
