Slices women are still battling for equality. We do not think that they should be drafted into the Armed Forces.

Bob Edwards: I most certainly do. So far, the girls have wanted special privileges rather than equal opportunity. If they were in the front line, we would prove their real intentions. There should be a system where the girls are put anywhere they are needed.

Zelma Scott: Emphysema or what? No! The men are battling, who will be home if the girls are over the hump? We are needed at home.

Kenneth Brown: Perhaps right now the girls are doing more in the women's service; but in time, men will not be needed. If they are and women are not, then we will be fighting for the war.

Lil Hyde: God forbid! If the girls start getting drafted, I'm moving to Lower Rhodora. Hindus in India are not becoming. Imagine me charging the war.

We do not want to see the side of some snow-covered hill with one of those heavy packs on our backs.

Fred Randle: I very definitely think women should be drafted. Then we wouldn't have to worry about what they are doing at home, while we are away.

Bob Edwards: We don't have to be on the front lines; there is a lot of work to be done behind the lines. Marian Segal: No! We wouldn't want the same value in the service as the men. Women cooking. We are not drafted in World War II.

Bob Edwards: We don't think that husbands would want their young wives in the army.

Walter Carlisle: Primarily because of their physiological function, they need their men on the home front. Women cooking. We are not drafted in World War II.

Bertha Rose: No. A woman's face is at home. Knowing the way some women drive, I know a woman needs confidence in a means if they are a control of a tank.

In these times of crisis, women should be kept at home with their children for a more peaceful world.

Swarthout, Ithaca

Student to Work in Sarasota, Fla.

Shirley Swarthout, speech major, and one of the 15 I. T. C. students to listed in this year’s ‘Who’s Who in American Colleges.’ has been hired by Stuart Lancaster as technical director and designer at his winter stock company, the Palm Tree Playhouse, in Sarasota, Florida. Shirley, who was to be a senior this year, is well prepared for this work. Besides having worked as student assistant at the College, she spent the summer of 1951 with the summer stock company at Stratford, Rhode Island, where she was assistant designer.

Last summer, Shirley worked as a sound designer and technical director at the Malden Bridge Playhouse. It was there that Mr. Lancaster, well-known producer and director, saw her work. Since the company will have a 12 week season, Shirley had to take a leave of absence. She plans, however, to return next fall to continue her studies.

It may be interesting to note that both Shirley’s parents, Mr. and Mrs. Swarthout, are graduates of Ithaca College.

Brewer Announces

Broadcast Service

Added to Station

WJTI, the Ithaca College Radio Workshop, has recently added another broadcast, service to make it one of the more progressive educational radio stations in the nation, Professor Fred Brewer, director, has announced.

Each weekday evening, WJTI, now carries the programs of WQXW, New York City, for specified times. This programming was made possible through the cooperation of Rural Radio Network, and Gerald Stagg, program director of the network, who offered the service.

WJTI schedules WQXW’s outstanding music broadcasts from 7:20 to 8 o’clock each evening. On the nights that Rural Radio Network’s Ithaca outlet, WJHU-FM, broadcasts Cornell basketball games, WJTI programs WQXW until 10:04 p.m.

Indications are, Professor Brewer said, that this new programming is creating considerable good will for the station in this community.

Theater

The final cast list is up. Those who tried out eagerly scan the sheet that determines what part they play. Some are indifferent, they receive a part but not the one they sought. Some are barred or disqualified, they are not in the play. Those who emerged from the crossfire of their classmates because it is a professional performance are: GORDON BY MY FANCY, ENEMY OF THE PEOPLE, THE SCHOLAR, and has worked on crew for others. He says, "There is fine coordination between the stage, crew, and extra-curricular work."

George Smith

George Smith, who majors in speech and drama and minors in literature and English, was named to the list of 1947, was married in 1939, and is the father of two lively girls. MR. AND MRS. MURDERER!

Radio Free Europe is telling all of Romania about this bloodthirsty couple and their secret torture chamber!

Until 10 A.M., December 27th, they were simply Mr. and Mrs. Margineanu, distinguished citizens of Blaj, respected and admired by the entire community. And then—

"This is Radio Free Europe. People of Romania, listen to this information we have received from the underground at Blaj. Among the foremost aides of the Chief of the Security Police are a young married couple named Margineanu. Together with other members of the governmental gang, they patronize blood orgies nightly. Those freedom-loving Romanians not in sympathy with the Communist regime are dragged before them and beaten to death. While the torture goes on, the wine bottle is passed around—and there is much toasting and singing.

The names of other regular participants are as follows . . ."

The crimes against the captive nation are revealed each day by Radio Free Europe. Traitors, informers and "quillings" are named. Lives of anti-communist patriots are saved. Truth is piercing the Iron Curtain and spreading fear and confusion among Communist overlords and their collaborators.

Support the Crusade For Freedom!

Slowly but surely the true face of Communism is being exposed and the cold war is being won. But Radio Free Europe urgently needs more help from its sponsors—you!

The Crusade for Freedom needs at least $4,000,000 this year to support and expand the operations of Radio Free Europe and Radio Free Asia.

This Crusade cannot succeed without your help. Radio Free Europe and Radio Free Asia need your contributions to help fight red lies with truth and to win the cold war.

Get behind this truth campaign now! Help bring to millions the promise of future freedom. Send your contribution to Crusade for Freedom, c/o your local Postmaster.

... most agree with the idea of teaching the people how to do it themselves.

... successful, the length of the people has not put in as many “man-hours,” and... as any human being can stand during three short months.

And yet, these three months before presidential elections are the “coup-staff” for the first time for four years. Campaigning means ringing the door bells of the sleepy and in different minds. To bring out the votes is this real odd. Campaigning against all odds, is in creative work: two potential pres­i­dents speak to the nation on the major issues which mold our na­tional life. If the standards of campa­igning are not always quite up to such measurements, it would be cheap and superficial to blame it on the candidates. Furthermore, by geo­graphic latitudes, are the result of tremendous pressure which accelerates the speed of the campaign toward the finish.

But do we have to resign our­selves to this for ever? I don’t think so. The trouble with cam­paigning is that all the incentives are just on one side. After the first Tuesday in November there follows an Ash Wednesday for the feasted party, and in the true spirit of a political bent the沮丧 promise to fast on a diet of grass roots. But the campaign is forgot­ten.

This Air Force training is the start of a challenging and interest­ing career in meteorology. For Weather officers who choose to re­main on active duty with the Air Weather Service, advancement oppor­tunities exist through the rank of full colonel. Civilian careers in meteorology, for those who return to civilian life after Air Weather Service training and ex­perience, cover a wide range of opportunities.

Aside from the obvious oppor­tunities at the U. S. Weather Bureau and the U. S. Office of Weather Service, other areas have claimed Air Weather Service “graduates.” Many meteorologists have gone into business for them­selves, establishing weather con­sulting services in various parts of the United States, to which in­dustry and business can bring their weather problems.

Business and industrial concerns employ large numbers of weather specialists in such areas as testing programs for plant location and department store sales program­ming. In addition, Federal and state government agencies employ meteorologists for a variety of projects.

Interested senior students and graduates, either men or women, can obtain full details on receiving direct commissions and Govern­ment-weather expense training with the Air Force by writing im­mediately to the Commanding Gen­eral, Air Weather Service, Washing­ton 25, D. C.

for good campaigning which may serve to insert a civic component into our pre-election periods. “Good” campaigning? Yes good campaign­ing, measured by the standards of our great civic organiz­ations, such as the League of Women Voters. Of course, almost all have use for such stand­ards when the portion raises riots and the semantic storms blow. But the Civic groups have a campaign of their own, right, in the midst of our campaign. They campaign for votes and more votes. Could we ask them to add another, even heavier, burden to their non­pur­pose duties? I propose a Kullor of Pulitzer Prizes for the best campaigning in terms of civic endeavors. True to the spirit of our two-party system, there must be, at least, two prizes.

The University of Idaho Girls Revolt Against Time Restrictions
Special to The Ithacan

In many states when girls are old enough to vote they are considered old enough to get married. In all states they are old enough to join one of the women’s sororities. When a girl graduates from high school, she has her choice of going on to college, getting a job or getting married.

It is assumed in all these instances that she has enough sense of maturity to judge what is relevant. Is she considered old enough to vote? Is she considered old enough to marry? We hope she will not procrastinate. We hope she will vote and not marry. We hope she will vote and not marry. And we hope she will not marry.

I.C. Cagers Subdued by Bonnies 59-54; Defeat Wilkes College at Home 77-73

The Bombers of Ithaca put up a terrific fight before losing to top-ranking Bonaventure last Sunday night by a 59-54 count. The Bombers were forced to use their entire starting lineup throughout the game in order to grab the win in the contest.

Malmen Undeated by Overpowering Champlain

The Ithaca grapplers opened their season with an easy 25-8 win over Champlain, Dec. 6. The win was the sixth in a row for the meeters over a two year span.

Ed Mangicaro led off the night by pinning his 123-pound rival in 65 seconds of the second period with a half-nelson body press. The quickest match of the night came when Jim Howard in the 137-pound class pinned his Champlain rival in the first period.

In the 157-pound class Ed Pancek of Ithaca pinned the Champlain captain with a body press. Two of the newcomers to the squad suffered Ithaca’s only losses. Don Wolley in the 147-pound class was pinned and Bill Chope in the 157-pound slot was decisioned.

Bomber co-captain Red Thoman looked impressive as he pinned his 123-pound rival in 32 seconds. Scully at one point threw in a straight back in the first period and his pin was a contributing factor in the team’s fine show.

The game was decided in the first quarter as Ithaca racked up 13 points. The Bombers in contention in the last quarter to take the scoring lead were Al Gilberti and Ed Byrne with 10 and 9 points respectively. The team shooting percentage was an excellent 41 percent with 22 for 55 from the floor.

The Bombers scored now stands at 1 win and 2 losses with the Army game coming up Wednesday as the next big contest for the Bombers.

The freshmen also dropped a close 52-50 game to the Bobcats. Al Chodwick led the Freds with 17 points.

The Bombers opened their home season after a road game loss to the Bobcats by topping Wilkes College 77-73 in a last minute rally. A capacity crowd saw the Bombers come through for the win on a down to the wire finish. In the 10 minute overtime the hand changed four times before the outcome was decided. With the Ithaca lead at 71-70 and 2.90 seconds to go, Ed Byrne threw a driving spin shot and connected a fouled a point putting the Bombers ahead for good. Byrne capped 3 points in 10 in the last 1.20 seconds.

In the scoring honors for the night’s play. Right behind Byrne was Al Gilberti with 15. Joe Scally and Don Ker shared honors with 10 points each.

The Bomber Cubes dropped their first game of the season to a more experienced General Electric team from Syracuse, 70-59. The final ended from the start and never could catch the winners. Bob Thuvils and Don Ker shared honors with 10 points each.

The Ithaca Is Rated As Second Class, Goal Super High

Joe Pianelli, Ithaca center, has announced that last night’s game in which Ithaca’s Ithaca has been rated as a solid first class college by the Associated Collegiate Press according to the critical report which recently arrived at the Ithaca offices. The A.C.P. rates the Ithaca each semester with other papers published by schools which are the same size as Ithaca College.

Pianelli has hopes that this semester’s paper shall reach the highest critical honors: All American.

Sophomore Top Class Cager

Sporad by The Ithaca

A poll of Smith College, Mass., shows that sophomores do more class cutting than other students. Fifty-four percent of the class cut out at least once a week.

Three main reasons for cutting were given: (1) Studying for exams; (2) idleness; and (3) Saturdays classes out-of-town weekends.

Commented the Student, student newspaper, "The reasons or excuses for missing class reveals well the lack of responsibility. The most frequent excuse,_studying, shows that a poor value judgment, at least a lack of planning. The class routine is even more ridiculous."

Chinese in Dilemma

Special to The Ithacan

Chinese American students in New York and Tennessee have caught between two governments. Recently the United States government has removed majoring in science and technology from the leaving the country.

The law passed to prevent American-trained Chinese students from being of service to Communist China, makes it impossible for many of the students to return to their families in their home land. Some of the students don’t want to return anyway, for they have heard that American-trained Chinese find life difficult in Red China. At the same time, those students know they will have to get working good jobs in America. Those with M.D.’s are refused permission to practice in most states. Result: many highly trained Chinese students are doing menial labor.
