Adolph Elects Joel Levy President; Sophomores Hold Remaining Offices

On December 16, Joel Levy, a sophomore in the Radio Department, was elected president of Adolph. Besides being Make-an-Editor of the Ithaca Ithar, Joel is a member of the Delta Kappa, and is participating in Scamper this year.

Charlotte Taxtar, a sophomore in the Music Department, was elected vice-president. The secretary for next year will be a sophomore, Hepburn Speech major. Ann McCauley, another Music sophomore is also a member of the Winter Carnival Room Workshop.

Levy was born in Albany, N.Y. While in Albany High School he was a member of the literary society, played in the band, and was an assistant football manager. Since he has been at Cornell, Joel has been active in TWS-TTJ, the Ithaca College Radio Workshop.

Dortmouth Limits Size of Carnival

The Dartmouth Outing Club is in conjunction with other student organizations at Dartmouth and has undertaken a program to limit the size of the 1953 Winter Carnival. The rationale for this action is based on reports by students, alumni, and others that there were too many people resulting from last year's Carnival. Overcrowded conditions made it difficult for students to find accommodations for their guests and their dates while endless lines of cars made traveling impossible. As a result of overcrowded facilities, fire hazards, vandalism, and other undesirable conditions were prevalent.

Because of this situation the following recommendations have been adopted.

1. People who wish to attend themselves and one or two guests may secure a guest card from a student in whose room they wish to stay.

2. The Interfraternity Council has decided to continue its policy of requiring all card-holders to furnish a slip for identification purposes.

3. Guest who wish to attend the Winter Carnival should make arrangements as soon as possible because the number of guest cards is limited.

4. This program is in conjunction with other colleges and the limitations at Dartmouth will be illustrated by representatives of the Dartmouth Outing Club, the Dartmouth Athletic Council to interpret their policies to the students at your earliest convenience. Any information leading to the securing of additional cards will be greatly appreciated.

The Ithaca hoosepers snaped a three-game losing streak by beating the Hancock Airmen 93-67 in their first home game of the new season. The Ithicans dominated the Airmen at 3-3 as they prepare to face power West Virginia in the first game of the season.

The opening two minutes of the game were close, but then the roof fell in on the Airmen. Deadly shooting by Ed Bloom led the Ithicans in the first period built up a 27-19 first quarter score. Gilberti and O'Hara had hot in the second stanza and the halftime tally was 46-21. Coach Wood used his whole bench in the second half and the boys played solid basketball. High scoring honors went to Ed Byrne, who hit on 12 of 23, and Dan McGlinchey, who hit on 9 of 17 for the night's work. Roes scored 18 points and played his game of the season. Gilberti and Howard came through with 15 and 13 points respectively and O'Hara broke into the scoring column for the first time this season.

The hustle and drive of the Ithicans threw the Airmen off balance in the contest. Ithaca players ripped the Airmen all night, picking off passes, controlling the boards and literally running the opposition into the ground. The Woodmen had a repeat of this performance for another solid victory.

TAP TAP To Sponsor Scamper's Party

TAP is sponsoring a Scamper's Party to be given on Saturday, January 24, at Phillips Gymnasium. The party, which will be in celebration of the last performance of this year's Scamper's production "New Hope Thrice," will begin at 9 o'clock sharp. Admission will be 25 cents each. There will be dancing, singing, and other activities. There will be a "barnyard" of songs and skits from Scammers' production of recent years. Refreshments will be served. The admission price will be good for the entertainment and the dancing, singing, and other activities.

Lost Notice

Here is an important item that was overlooked in this issue. The University of Missouri announces the Eighth Annual International Collec, Photograph Composition Announced by U. of Missouri

Photo Competition Announced by U. of Missouri

Kappa Alpha Psi of the University of Missouri announces the Eighth Annual International Collegiate Photography Composition competition. All persons who plan to enter in the show in addition to national recognition, will receive a certificate of merit. Two major awards will be given. The individual volume Encyclopedia of Photography, every phase of pleasure, will be awarded to the person who makes the best shot. A $25,000 bonus will be used to help defray expenses. The awards will be given to the amateur winner, providing his prints emphasize college life. The photos submitted must be the work of students at no less than seven (7) prints, representing at least three (3) classes (not more than 5 prints in one class). A portfolio will be mandatory for a major award.

5. Prints must be 8x10 or larger, and the entries must be accompanied by a statement of the photographer's name and residence, or college, school, address, and the interpretation of the prints.

6. Any college, university, or school that wishes to exhibit materials must be accompanied by a release.

7. The closing date is April 1, 1953. Send prints, portfolios, and the announced cost to: Scamper's Party, Room 13, Walter Lockwood, Ithaca High School, of the nation's colleges and universities. The winning photograph will be danced to live music. Admission is thirty-five cents.

School Enrollment Gains

Most of the nation's colleges and universities are having a losing streak at the enrollment box office. Even the smaller colleges, who were expected to be the beneficiaries of the draft and by the graduation of so many veterans, are holding their own.

Perhaps the largest rise in enrollment has been at Georgia Tech. Its freshman class is now 10 percent larger than last year.

College administrators attribute the rise in enrollment to the fact that the academicians have come to the revolution in RTOP's program. The non-student's fear of being left out of the military has been the major factor in the decision of many veterans to remain in school.

The most popular choices among veterans are those of the nation's colleges and universities. The winning photograph will be danced to live music. Admission is thirty-five cents.
March of Dimes vs. March of Polio

While science last year was making its most historic efforts toward polio prevention, the disease struck with force unparalleled in its history. The March of Dimes, with 55,000 persons last year, most of them between 15 and 21 years of age. It broke all records for the number of cases occurring in single families. Eleven were known to have occurred in families with King; two were added in the case of Scott Buff, Neb.; six in San Antonio, Tex., and five in Taylor, Wis.

Only an extremely successful March of Dimes drove from Jan. 2 to March 1, 1952, provided the March of Dimes with 550 chest respirators, 500 hot pack machines, and 275 rocking beds for polio victims. More breathing aids were supplied during the year than in the first function. The National Foundation in 1952 provided millions of dollars worth of life-saving equipment such as 2,175 iron lungs, 550 chest respirators, 5,000 packing cases of food, 250 ammonia ice packs, and 10,000 Breather aids were supplied during the year.

It is estimated that the March of Dimes drive will save more than 1,000 lives this year. Each life saved costs $1,000, or $1 million for the year. This is about one-fourth of the cost of the polio vaccine.

In addition to this patient-care service and other hospital costs, as a result of the March of Dimes, the National Foundation provided millions of dollars worth of life-saving equipment such as 2,175 iron lungs, 550 chest respirators, and 5,000 packing cases of food. The March of Dimes drive is the largest private organization engaged in the treatment of polio.

In 1952, the March of Dimes drive was conducted by 1,500,000 unpaid volunteers. The work of the March of Dimes volunteers is not only limited to the physical care of polio victims, but also includes the psychological and emotional care of the patient and the family. The volunteers are trained in the latest techniques of physical therapy and in the care of the polio victim. They are also trained in the care of the family and in the care of the community. The volunteers are trained to be the eyes and ears of the patient and to be the voice of the patient. They are trained to be the voice of the patient and to be the voice of the community. The volunteers are trained to be the voice of the patient and to be the voice of the community.

Use 'Butt' Cans

When the Ithaca College annex was first opened for use, smoking was prohibited throughout the building. The signs were later removed, and nothing was said about it. The most disappointing characteristic of critics is their inability to express their own feelings. The most disappointing characteristic of critics is their inability to express their own feelings.

Within the last few months, the problem of cigarette litter in the classroom has become acute. The walls of the classroom are littered with cigarette butts. Feminine Logic...

**A Freshman Views College Life**

by Charlotte Rozon

As freshmen, we of the class of '54 have found that the first term in college to be a new, exciting experience. The familiar question "What do you expect to get out of college?" has been drummed in our minds. However, by now, most of us realize that we have to put a lot into our college life in order to accomplish our purposes for existing.

Now that we have passed the initial period of freshman life, we can look back and see how much we have accomplished and what we need to accomplish in the future. Perhaps the upperclassmen have already done this, and as a result, we can look up to them for inspiration as we advance.

Possibly, when you stop, look, and listen to your friends you will hear some new term resolutions such as: I resolve not to attend classes.

One cannot obtain an academic education by merely plucking off one leaf from the tree of knowledge, looking at it, and throwing it away. College education is a huge branch of that tree of knowledge. Ability to grasp on to it is a great achievement. Every student should take advantage of this opportunity to attend college.

How are you going to improve yourself in the new term? Why not try to give your book another chance, perhaps open them, and read them? Now is the time for you to improve your grades. Higher marks will certainly boost morale, also.

Can you "take it" 6 days a week? For 52 weeks? Can you meet the high standards required to be an Aviation Cadet? If you can — then here's a man-size opportunity! An opportunity to serve your country and build a personal career that will fit you for responsible positions both in military and commercial aviation.

It won't be easy! Training discipline for Aviation Cadets is rigid. You'll work hard, study hard, play hard — especially for the first few weeks. But when it's over, you'll be a pro — with a career ahead of you that will take you as far as you want to go. You graduate as a 2nd Lieutenant in the Air Force, with pay of $5,300.00 a year. And this is only the beginning — your opportunities for advancement are unlimited.

Science Invents Dormiphones

If psychologists at Georgetown University are right, it may be possible for the next generation of students to study in their sleep.

All one need use is a dormiphone — that is, a record player with an automatic repeating mechanism. It has a built-in loudspeaker, an under-pillow speaker and an earpiece.

The idea is that while you sleep, the dormiphone repeats your afternoon lesson to you through the night, grinding it into your subconscious. Aldous Huxley, in his book The New lunch, had a similar idea which he called "hypno-tips.

At this stage, though, the dormiphone isn't very helpful to students studying for examinations. The Georgetown scientists are experimenting with nonsense syllables, no Shakespeare.

Disgusted Professor Hurts China Plates

A bio science teacher at Michigan State told his class he was disgusted because so few of his students believed in flying saucers. Then he picked up a bag and started hurling china plates across the lecture room.

**New Aviation Cadet Training Classes Begin Every Few Weeks!**

**HERE'S WHAT TO DO:**

1. Take a transcript of your college credits and a copy of your birth certificate to your nearest Air Force Base or Recruiting Station. Fill out the application they give you.

2. If application is accepted, the Air Force will arrange for you to take a physical examination.

3. Next, you will be given a written and manual aptitude test.

4. If you pass your physical and other tests, you will be scheduled for an Aviation Cadet Training Class. The Selective Service Act allows you a four-month deferment while waiting class assignment.

**WHERE TO GET MORE DETAILS:** Visit your nearest Air Force Base or Air Force Recruiting Officer.

**OR WRITE TO:** Aviation Cadet Headquarters, U. S. Air Force, Washington 25, D. C.
Adelphi Proposes Amendments

By Phyllis Pipkin

The following are proposed amendments to the Adelphi Constitution, but I’m not sure if the list is complete. Please fill out the ballot and return it as soon as possible to Patty Shapiro, Speech.

The faculty members of the Physical Education Department and students, especially seniors, are invited to attend the annual Physical Education Convention which will be held in Ithaca from June 21 to Jan. 30.

**Discrimination: Pro and Con**

By Milly Ebert

One of the many problems facing society today is discrimination. Proponents of this view believe that discrimination is necessary in order to maintain a certain level of social order and to ensure a fair distribution of resources.

On the other hand, opponents argue that discrimination is unjust and that it perpetuates inequalities and unfair treatment. They believe that all individuals should be treated equally, regardless of their race, gender, religion, or any other characteristic.

John Kontrobec

John Kontrobec hails from Niagara Falls but was discharged from the U.S. Army during his three years of service. He attended Ithaca College in Sept. 1949, majoring in dramatics. During his studies, he worked as a communications chief in the Army and later became a member of Oracle, Who's scenes, music, and arrangements promptly after the Thanksgiving show. He has been taking an active part in Scampers for the past three years as actor, writer and director. Some of the dramatic productions John has taken part in are: Enemy of the People, Henry IV, and American Tragedy. He is now a sergeant in the U.S. Army, stationed in the metropolitan area of New York City. Attending his first IC luncheon.

Bob Moss

Bob Moss was born in Indianapolis, Indiana, and graduated from Butler University in 1950. He received the Adelphi Book Scholarship in 1951 and 1952. He is also a member of Oracle, Who's scenes, music, and arrangements promptly after the Thanksgiving show. He is now a sergeant in the U.S. Army, stationed in the metropolitan area of New York City. Attending his first IC luncheon.

**Physio Facts**

by Mel Schorr

"There's a lot of physiology wrapped up in that," remarked an instructor referring to the action of an athlete performing a particular athletic feat. And he could have just as well have made the same remark referring to any action that any human being performs for we are strictly physiological creatures. It is the disturbance of a person's normal physiology which handicaps or hinders him in his work and does not allow him to enjoy the pleasures of life.

It is practically impossible for a man to go out and have a good time the night after someone he really loved passed away. This is a physiological disturbance of the nervous system. In this case the disturbance can only be cured by time.

The public speaker who has laryngitis can not do his work very well, for he has an inflammation of the larynx, which houses his vocal cords, and their function is, naturally, hampered by this physiological disturbance.

Although physiotherapy cannot adjust a person's nervous system so that he can go out and have a good time the night after someone he really loved passed away, nor can the physiotherapist turn on a machine and cure the laryngitis on the public speaker, it should be possible to do this later that night, that is, to give the speaker his voice back so that he can use it.

There are physiological disturbances of the nervous system. In this case the disturbance is caused by the effects of disease, natural and physical methods. Among those disturbances of a physiological nature that physiotherapy treatment can aid or cure are polio, arthritis, cerebral paralysis and others.

In polio (poliomyelitis), infants paralysis, the disturbance is to the cells of the spinal cord which causes muscle paralysis. The physiotherapist can remove the functions of the paralyzed part and teach a person how to bear it.

Arthritis is a physiological disturbance that, as yet, has no defined cure. In arthritis, the methods employed by the physiotherapist relieve the condition.

Cerebral palsy, addiction and some other disturbances relieved by physiotherapy treatment are of the neurological nature that physiotherapy treatment is steadily gaining the respect of the general public as an allied medical science.

**The Big Topic**

by Vernon Hinkle

This is the time of year when the main topic of discussion isn’t sports or students but Scampers. In one way, this year’s production has been the same as all the others: There have been those who argued pro and those who argued con, and those who didn’t argue at all. But no matter what each person’s attitude was, it is only fair that we be fair when he was an actor, to give him credit or the cast a fair chance.

While working to make this year bearable for the students, we have been conscious of the fact that all the bad heart cases almost always have another cigarette. So I push, bump and squeeze my way outside to exercise my vocal chords singing or whistling.

"Where would we get chaperones for our dances?" asks the Holcad. Well, I’m sure to find me around mid-term outside now. It's time to exercise my vocal chords singing or whistling.

After a good session outside I walk into the library. "I'm the Jerk," I mumble, but time is hard enough to break a few ribs of the guy behind me. Well, I'm outside now. It's time to exercise my vocal chords singing or whistling.

**Foreign Student Roundup**

(From the European Student Mirror)

**AUSTRIA: TOO MUCH TUITION** Five thousand students rallied in Vienna last month in protest against the latest tuition rise. The number of education assured the students there would be no further rise and asked them to cancel the "enrollment boycott." This was done.

**ENGLAND: EARLY TO BED** The traditional 10 p.m. curfew for Cambridge students was dealt a blow last month by the vice-chancellor.

"It is perhaps strange," he said, "that in the middle of the 20th century, students should have to consider whether 11 o'clock is a respectable hour for young men and women to be abroad." He called the early curfew "a burden" and proceeded informally to young men.

**PAST GERMANY** Three students have been expelled from Potsdam Pedagogical High School, because, it was said, their political convictions rendered them "unworthy of studying at an academic institution in the German Democratic Republic."

Another three students have been reprimanded for having carried on their studies without the proper degree of "social consciousness."

**ITALY** A professor at Turin university has been arrested on charges that he sold 1,400 copies of the questions the university plans to give on exams, before the exams were held.

**WEST GERMANY** Forty Persian students, having staged a sit-down strike in the Persian Consulate General Building, were arrested. The strike is to give emphasis to the students' demands for a greater supply of German currency so that they can return to Persia.

The Persian consulate finally granted them permanent passports which cleared the students from the premises.

GRAPPLERS’ WIN STREAK SNAPPED

IC Bows to W-burg
In Bitter Battle

The Ithaca grapplers had their 9-match win streak snapped by Wayneburg’s College last night at the 16-12 score. The match was bitterly contested before a capacity crowd at the Seneca arena. The Bombers were definitely underestimated in this contest against the power-laden visitors. Wayneburg is a perennial wrestling power in the Coal Rats, and the Teachers were well represented by a sectional high school champ in every weight division.

The brief moments of elation for the local fans were supplied by Jim Howard, John DeKay, and Mort Schlien. Howard, who is unbeaten in 3 years in dual meets, thrilled the crowd with a lightning-like pin of his opponent in 18 seconds of the first period. The workman-like job made quick work of Pantel and will be watched closely by the coaching press. This writer was really impressed by the way Schlien moves and works for a man his weight. He is fast and strong and appears to be very confident of himself. The progress of Schlien the rest of the year will be watched closely by the corner. The Bombers next match will be tomorrow night at Queens College in Ontario.

Summaries:

130—Barn, W., decisioned Mangiulli, 1-4-6.
137—Howard, I., pinned Glenda, W., Crutchl.
177—DeKay, W., decisioned Pucoff, L.-0-6.
187—Kawasaki, W., decisioned Chople, J.-6-0.
155—Lewin, W., pinned Ciabotti, L.—Body Press.
147—Putorti, W., decisioned Thomas, D.—Body Press.
175—DeKay, I., draw Rogers, W.—2-6.

Basketball... 

"(Continued from page 1)

Two foul shots made by State of East Stroudsburg in the last second of that game gave the Teachers a 64-62 win over the Bombers. Ithaca trailed the winners by 10 points with 3 minutes to go when a scoring spurt by Ed Byrne and Don Howard closed the gap for the Bombers. Byrne took scoring honors for the Blue and Gold with 27 points. Howard and Gilberti chipped in 13 and 11 markes apiece.

In a lonely played game the College varsity five chalked up a 78-62 win over hapless Utica College. The Utica game is usually a "breather" on the Ithaca schedule and this game was no exception. The Bombers used their whole 11 man squad on the encounter and every man broke into the scoring column. The locals jumped off to a 32-20 half-time lead and braved through the rest of the game. High man on the scoring was the team leader Ed Byrne with 15 points. Hitting double figures were Dan Howard and Al Gilberti with 14 tallys apiece and Gran Ros with 12 points.

Wilkes College of Wilkes-Barre avenged a 77-72 loss to Ithaca by pinning the Bombers 82-77 on their home court. The Colonel victory came on a second half spurt that erased a four point halftime deficit. Three Bombers hit for 17 points apiece. Sharing the scoring honors were Ed Byrne, Don Howard, and Gran Ros. The inability of the second line scoring men spelled defeat for the Ithacans.

Big Bill Hannan of Army scored 27 points to help beat the Ithacans 67-61 at West Point. The game was close all the way until the last two minutes when Hannan led the Ithacans 3 bundles. Ed Byrne led the losers with 17 points. Howard, cloine each added 14 points to the attack.

Plan W.A.A. Playday
Jan. 17, Seneca Gym

W.A.A. will hold a Basketball Playday on Sat., Jan. 17 at the seneca Gym. The schools invited to attend are Cornell, Cortland, Wilkes, and Wells. Competition will consist of a Double Elimination Tournament of mixed teams.

Delores Chiocco is general chair­man and she has asked all WAA Bombers to cooperate with the committee chairmen. This is the first time Ithaca College has acted as hostess for a Playday and we would like to make the event a real success.

The games will start at 10:30 a.m. and everyone is welcome to attend.

The W.A.A. House Basketball team will begin play on Thurs., Jan. 19. The schedule will be post­ed at the Seneca Gym. If any house is unable to put a full team hour in advance, they all be on the floor, please notify the op­time for the games and make this posting team captain at least one a good season.
