Speech Arts Bulletin: Ready for Distribution; New Style Of Makeup Is An Attraction

Adrian M. Newens, Director of Williams School, Edie Book, Of Helpful and Timely Articles on All Phases of Drama, Makes Next Appearance as a New and Forceful Factor

The Speech Arts Bulletin, the publication of the Wil- liams School, has come out with a new format this year—and in its seventh year as has its aim the advancement of the fine arts in its teaching in the speech arts in public schools or college. This year, as in the past, the bulletin will be distributed to the schools of America.

In the latest issue of the bulletin, Adrian M. Newens, the Director of the Williams School, has published the bulletin in a new format.

Prominent among the contribu- tors to the magazine is Donald T. Mitchell, Professor of Speech and Drama at the University of Illinois. The article is enti- tled “Theatre in Education” and is subtitled “Theatre in Illingham.”

“Troduction,” Mr. Newens agrees with certain aspects of the great actor’s talent in educational theory,” the theatre is a tool for the development of the whole man,” he continues. “In the theatre, the emotions of man are increasingly important for the welfare of society, and the development of the whole man can be achieved through the arts. The theatre is a way of understanding one’s fellow man and the processes of life.”

The entire bulletin is remarkable for the scope and the variety of its contents. The bulletin is a combination of the various aspects of the speech arts—drama, music, and dance. The bulletin is a useful tool for the education of the students of the Williams School.
