**Books For Africa**

At the last meeting of the International Club of Ithaca College, two important topics were discussed—the problems in the Congo and the problems of the rising Africa.

African students at the meeting agreed that education and training in the arts are the areas of most importance to the African society since it must develop an educated middle class. The International Club, hoping to do its part, has started a "Books For Africa" campaign at IC and in the city of Ithaca.

The club will collect used and new educational, scientific, and technical books to send to African schools and universities.

The Ithacan would like to encourage students to contribute to this worthwhile project so that a least a fortunate society will be aided in its attempt for a strongly desired advancement in education.

I.C. Skaters Win In Overtime Finale 8 - 7

by Jim Cohen

The Ithaca College Hockey team, coached by Vince Mussina, ended its season on a winning note last Saturday night as it nipped the Rochester Rovers 8-7 in overtime.

The hockey team finished the season with five wins and seven losses, winning three of its last four games.

The team, which won its first games of the season before losing two forward lines due to injuries, is made up of students of all departments.

Many Grant, last year's leading scorer, and Jeff Jacobson were the two forwards that sustained injuries early in the season. Dick Novis, another veteran of last year's team, also had to drop from the team this year to do his student teaching.

The team won an impressive victory.

Letters

... and their toil President Toombs more bitter against Lumumba than ever before.

Lumumba was murdered in Tumbuka's province. It is small wonder that the pronouncement of his murder by the Katanga officials contained statements like: "we cannot honestly blame these people."

This bitter crime cannot be supported. Not only is it unethical and immoral to kill political opponents, but it poses a threat to African nationalism whenever it is to rise in opposition to colonial's interests. This we (speaking for African nations) are not prepared to accept, let alone tolerate.

If any colonial power depends on preserving its empire with murder and assassinations, there will continue to be a great many Lumumbas.

We do not wish our freedom cut by the sickle or sapped by the scythe.

Yours truly,
Lulde Kinosonkole
Uganda, E. Africa.

Dear Editor:

I would like to bring out a point not presented in the article "Admit Red China" in the February 8 issue of The Ithaca.

I believe that the primary reason for non-recognition of Communist China in the United States is that the legal government of China is the Peking government and any other government is not the legal bargaining agent for the Chinese people.

If Communist China is admitted to the UN, this will mean that the Red government is not only realized as a legal government, but accepted as a legal government.

People will say that it is foolish not to face the fact that the Red government is in control, but it is a principle that we are "fighting" for. I am glad that there are still a few people left in this world who have principles and will stand up for them.

Sincerely,
Robert Rietick
