Ben Light, director of admissions and graduate manager of athletics at Ithaca College, has been promoted to the position of dean of the College, effective July 1.

President Howard I. Dillingham said that Light will assist him in his administrative duties in all non-academic areas. He will be responsible for the operation of the College's auxiliary enterprises. The principal ones being the dormitories and the dining halls.

Light, a native of Albany, has been a coach and administrator at Ithaca College since his graduation from the College in 1936, except during military service in World War II.

Light entered Ithaca College in 1932 when he starred in football and baseball. In his senior year he was varsity football coach during the illness of Coach James G. Dodge. Upon his graduation from the School of Health and Physical Education at Ithaca College, Light became freshman coach of football, basketball and baseball at the College for six years.

He served for 29 months in the U.S. Coast and baseball. In 1943 he was commissioned in the U.S. Coast and became a member of the Ithaca City Club and a director of the Tompkins County Health Assn.

He returned to the College in 1945 as assistant professor of physical education and varsity basketball coach. He served for seven years. His 1948-49 quintet was the strongest of the games won in a single season—16 out of 21.

Light also was varsity golf coach at Ithaca College for six seasons ending in 1952. That year he was promoted from assistant professor of physical education to director of admissions.

The college administrator is a member of the Ithaca City Club and director of the Tompkins County Health Assn.

The appointment has been ratified by the Ithaca Editors, Dean Earl Clarke and the Student Council.

At present, Joe, a native of Amsterdam, New York, is formulating a new staff to continue publishing the Ithacan on the weekly basis that was inaugurated this year under the present editor. He will be able to carry on the Citizens' Service and the news by the library.

In his sophomore year, Joe became Managing Editor. This involves knowledge of all phases of journalism.

Besides his Ithacan activities, Joe is also on the sports and advertising staffs of the Cayugan.

Joe is a member of the Newman Club, and is on the advertising board of the club's newspaper, The Voice. He is also a member of the Government Club.

He works daily at Stewart Red and White as a clerk.

Mr. Gillan will be officially introduced as Editor-in-Chief of the Ithacan at the newspaper's banquet to be held this weekend.

Tony Buttino, present Editor-in-Chief, will assume an advisory capacity for the remainder of the year.

IMPORTANT MEETING OF JUNIOR CLASS

Thursday, March 19, 7 PM
Aurora Gym Lecture Hall

Joe Gillan appointed Editor-in-Chief of Ithacan for 1959-60

Joseph A. Gillan, a Sophomore in the Liberal Arts department, has been named Editor-in-Chief of the Ithacan. Mr. Gillan was appointed by present Editor-in-Chief Tony Buttino, a senior Radio-TV Major, whose term ends with this issue.
Dear Editor,

In the beginning of this school year, when we began to plan the new year's events and for 1959, many crises were raised to have, for one, a Big-Named Band. With the cooperation of the Student Senate committee for spring weekend began the tedious chore of contact­

ing various groups to obtain a list of available bands and their prices.

Finally, it narrowed the list down to the best possibility, Billy Butterfly and the Butterflies. But the band would not mean that much to the student body. Having acted in the faith that we were fulfilling the major part of the student's wish in procuring such a band, Billy Butterfly, we would now like your vote of confidence.

A pre-spring meeting, open to all students of Ithaca College will be held in the Aurora Gyn Lee­

ed on Monday, April 19, 1959 at 7 p.m. The success of this year's spring meeting may depend on the choices you make at this meeting.

Thank you,

Spring Weekend Committee, 1959

Dear Editor:

I think that it would be a good motive to investigate the laundry "graffiti" at the Valentine Dorm. The conditions of the washers and drier in the basement are provided by one of the largest companies in Ithaca. The machines, inferior in construction, are supposed to charge $25 for washing and $3.00 for drying. Instead of $5.00, it costs about $1.00 each time a load is washed and dried. Either this company, who owns the machines, wants a quarter profit, or the college wants a cut; I don't know whose profit it is. But that a "joke-box" operation is in effect and this must result in doing whatever is possible to stop this operation.

Name Withheld

Dear Editor:

We, who frequent the snack bar at various hours, are wonder­
ing what can be done to prevent the lattice and executive bodies of the house to pass a law in order to keep the outside door to said area closed and only available for exit re­stricted to students only. This law, depending on one's frame of mind towards further existence. Though it is questionable as to whether a tire could exist in such a cold at­mosphere.

Hot air is a cold pan

M. L. Lonesome

Dear R. Baldwin,

My brother has always been an easy going, self restrained indi­

vidual, but lately he has sud­

denly changed. He has become addicted to the undesirable and unhealthy course of alcohol. I have no idea where he obtains his alcoholic beverages. The family has always been against drink­ing and our mother is regional president of Women's League. Would you give me your advice despairfully; please help us.

Sincerely yours,

Mary Baldwin

Dear Mr. Loeb,

It seems to me I have heard that a song before. Put your top up turn your radio down, and get out of Stewart Park.

M. L. Lonesome

Dear Editor,

I would like to take this oppor­
tunity to answer Mr. Buttinger's edi­
torial, which appeared in the Ithaca last week. Mr. Buttinger seems to insist that we should avoid cheating in the sense of "source" the teacher who allows it. To stop cheating at its source in a noble thought it is understood that cheating as a "cause", but when the source of cheating is the people who partake in this ac­

tivity, rather than the teacher who probably is not awake that it is taking place.

Although it is of course that there are situations in which cheating takes place, is this the fault of the faculty, the students who cheat, or the students who see cheating going on and fail to report it?

Can cheating be stopped by stronger classroom restrictions?

Calling the "perp" the " source of cheating", is it like holding a gun manufacturer respons­\n
ible for all-murders in which a gun is used for? Why not many of them or the gun itself? The family in faculty will beprices Draghers, played the name posto­

nally, who are responsible for all killings. It is foolish to consider that there are other ways of "KILLING" and so on. It is not the teacher who is responsible but the student who teaches. The cure is in a "small town" which is a "caus­e", but not the primary case. It means that the cure is in the classroom, in the classroom, on the campus, in the city and in the world. What this means is that we must certain be continually aware of examination days. This might be successful in the classroom and in the world.

Ithaca, N.Y.

Ithaca College's President. He was very willing in

The Old Order Changeth

There comes a time at the termination of four years of

Ithaca work that a person can write forever on various

phases of the College.

However, since this is the last issue under my capacity as editor, I shall take this opportunity to congratulate this

years staff. The editors and staff, the backbone of the

Ithacan deserve much credit in the fact that the newspaper

has not missed a scheduled circulation date which was set up

preceding the school year.

Doing this in the first year as a weekly reflects the co­

operation of many of the staff members.

Unknowing to some, the weekly basis was not an

administrative decision as some students and some faculty

seem to indicate. The idea was a standing one; this year's

editors and staff had the initiative to try it.

However, we must acknowledge the cooperation given

to us by many people. Foremost is President Dillingham who

really believes and trusts in the students. It is not every col­

lege president that comes in as close contact as he does as

Ithaca College's President. He was very willing in

aiding the newspaper.

The freedom that the Ithacan has expressed in some of

its editorials cannot be denied.

Words of encouragement are never overlooked. It is

hard for me to pick a few, but I should publicly thank Dean

Hickman, Miss MacDonald, Mrs. Helen Hoo and many

considerate IC students, including those Physiotherapy stu­

dents in NYC.

In a couple of weeks, a gentleman will assume what per­

haps is one of the greatest student responsibilities at Itha­

ca College.

The position deals with many administrative officials,

organizations, religious organizations, fraternities, faculty

members, and all the various departments of the College.

This person, Joseph Gillan, will be caught in the middle

of these things. He will be expected to please many of them

in their impossibility at this time. More consideration on the part

of all involved will make the job an easier one.

Aid instead of Pressure is a good answer. Good luck Joe.

-T. Buttinger

Letters To The Editor

In the March 11 issue of the ITHACAN a provocative editorial entitled, "One of Many", has stimulated the faculty to make some comment.

We believe that the time and importance of the editor­

ial and would suggest that the subject of cheating exists even more serious scrutiny and examination.

Faculty members know the problem and are eager to look into locked offices, stealing of examination papers, and cribbing of papers and tests are incidents which have occurred and would be termed offenses in many communities. Such offenses are liable to punishment. The college administration, however, cannot act

upon suspicion, but must have proof for dishonesty. The admin­

istration is genuinely concerned for the welfare of students and will make its best effort to do so, but it must be realized that some students may well have been misinterpreted by some as a sign of weakness.

It is true that as teachers we faculty members are mor­

ally and professionally obligated to help you uphold cer­

tain standards. This means doing our job conscientiously and thoughtfully by safeguarding examination papers and estab­

lishing physical conditions for testing purposes which act as deterrents rather than enticements for cheating.

To say that certain faculty members "do not encourage cheating" presupposes that you students are eager to cheat (a situation we doubt is in accord with the facts) and that cheating is primarily a faculty problem.

Unfortunately, we cannot disclaim the problem with this "pat answer", for it leaves the question of the basic issues concerning your college education. This question is whether your understanding of the problem is based upon the belief that the teacher's position is similar to that of a policeman, or whether it is founded upon the realization that a teacher is here to help you develop your own ethical standards of conduct.

For example, students can announce the examination itself that cheating is going on and need not wait until later and expect the teacher to play detective.

We teachers have committed our lives to the college and to every possible legitimate aid to help you in your learning. We are not all "easy", neither do we enjoy failing any stu­

dent; but we do have standards, both moral and professional, and we intend to live up to them. As faculty and students we make up the college and inevitably determine its reputation. This serious moral prob­

lem involves all of us.

"No man is an island unto himself"...

Committee for the Faculty

Marguerite C. Miller

Chairman

Mary Dexter Bates

Julia W. Jolliff

This serious moral problem involves all of us.

AN HONOR SYSTEM

One possible solution might be in the development of an Honor System. Will the student use the honor system? Will students let personal friendships and social pressures influence their actions or will they be able to turn in their friends. Many students fail to consider the possible consequences of their marking is done on a curve, that the honest student is being "crucified" on the Curve if there are cheaters.

Mr. Buttinger also writes that we should "Por put about letting a few 'hand picked individuals suffer" for the many.

We think that the best policy would be to punish who­

ever is caught in whatever manner possible and whoever authorizes such cheating.

It certainly does not appear fair to the students who are forced to pay for others' errors who are unfair.

Ithaca Salutes Rich Slomkowski
And Bob Marella As MVP’S

Choosing two of the most colorful athletes ever to grace the crossbooks of Ithaca College athletics, the SPORTS STAFF of the ITHACA announces its Most Valuable Player choices for the basketball and wrestling seasons just completed.

Richard "Slom" Slomkowski, 6’5” co-captain of the basketball Bombers, and Robert “Tiny” Marella outstanding heavyweight grappler are the recipients of this year’s award. Both men are closing out intercollegiate careers in their respective sports with record-breaking brilliance.

Averaging 20.8 points per game this season, Slomkowski broke both the highest single game total and the most field baskets in a single game when he tallied 41 points including 17 field goals against Hamilton College. His total of 1,152 points in three seasons bettered the record set by Alden Chadwick (P.E. ’56) of 1,109 for the season ’53-56. Kich’s four-year record of 1,380 points also bettered that set by Chadwick of 1,194.

However it is not for records alone that Rich merits the award: it is for his outstanding floor-play, his adaptability for playing the out-front position and the pivot. Rich never sacrificed his play to boost his own scoring. In fact, if he hadn’t been instructed by Coach Wood to continue to rally in the Hamilton game perhaps a new record would have been set.

Combining his talents with teammates, Leibrock, Churchill and company, Slom’s presence on the boards of Ithaca College athletics, the SPORTS STAFF has announced the Most Valuable Players of the year.

For rich Slomkowski, a member of the Newman Club, Varsity Club and the Majors Club. He is one of Coach Freeman’s veteran hurlers and will probably see much action this season.

Upon graduation Rich plans to take advantage of one of the major league contracts that have been offered him.

Bob Marella, the Ithaca’s choice in wrestling, finished a tenth bout

in the varsity squad.

Bob had an unbounded streak of 27 until he came up against Army’s Bob Novogratz at West Point last month. They wrestled to

WEEKEND PARTY LAW
PASSED BY COUNCIL
by Dave Scheuer
The following resolution was made at the student council meet-
ing on March 16, 1959.
"Fraternities may have parties starting two hours later than scheduled dancing during a week-
end and not conflict at other events of the weekend provided that girls staying in Ithaca Col-
lege dorms have tickets stamped for the college functions in order to obtain late permission given for
that function." (Motion by Fran Gott, Seconded by Al Eisenberg).

Cohen to head a committe to help
would like to
undergraduate membership and
interested students to look into the
Association. Cohen stated that he
problems of undergraduates and
