The three talented artists who are planning to attend the drama are the director, the musical director, and the lighting director.

All the offerings were given in a manner most surprising, as might a most efficient musician, permitting the listener to feel the force of the presentation.

The problem to be clear to Mrs. Wilson always seems to be greater than the ambition.

An example of splendid organ skill was shown by the string quartet. This ensemble, composed of Eugene, H. Finch, violin; and Caroline Morris, cello (senior year)...

This talented artist should be a frequent exhibit of the many musical events of the year. This year's composition from the classical, romanic and romantic periods.

**Notes and Notices**

**By Bob De La, ’30**

Six years ago, when I was a sophomore at the college, I chanced to read an article in *The Ithacan* on the history and shows of the college theatre, which was printed in the Feb. 22, 1927 issue of the newspaper. I was very interested in the story which was written by Professor Drumm, and I decided to visit the college theatre in order to see if it was as good as he described it.

When I arrived at the college theatre, I was very impressed by the size and beauty of the auditorium. The seats were comfortable and the lighting was excellent. I sat in the balcony seats and enjoyed the performance.

The play was a Shakespearean tragedy, and I was very impressed by the acting. The actors were all college students, and they did an excellent job of portraying the characters. The costumes were also very well done, and they added to the overall atmosphere of the play.

When the play was over, I decided to visit the college theatre again and see another play. I was very impressed by the college theatre and its productions, and I recommend it to anyone who is interested in theatre and acting.

The keynote of the convention was the importance of music in education, and it was stressed by various speakers, including Professor John A. Bryan of Teachers' College, who said that music is an essential part of a well-rounded education.

The closing session of the convention included the dedication of a new organ for the Little Theatre by Mrs. John A. Bryan, who said that the organ would be an asset to the Little Theatre and to the community.
